“The world was not created once, but every time an original artist appeared.”

-Marcel Proust-

After a few years of pause, NucleikArt is pleased to present:

“call for artists 5th EDITION”

We propose a call for artists again, offering an opportunity for sharing and human and artistic participation. The goal is to create a collective of talented and original artists, who express their ideas in a stimulating and surprising way for visitors. The vernissage of the event will be curated by Nucleika, transforming the space into a place dedicated to the visual research and personal experience that contemporary art offers.
